

The Florida Keys & Key West

A winning combination of brains and beauty.

Whether exploring the only living coral reef in North America, or plunging the depths of the largest artificial reef in the world, the 510-foot Spiegel Grove, there's enough intrigue in the waters of the Florida Keys & Key West to leave even the most jaded diver breathless.

The entire Florida Keys and the surrounding waters have been declared a National Marine Sanctuary. Which means that an area totaling 3,600 square miles, or roughly 1 1/2 times the size of Delaware, will remain as stunning for future generations as it is today.

DIVE LOG

These waters are teeming with literally thousands of living species, and an astounding variety of wrecks...some intentional, some, unfortunate maritime accidents. All, simply breathtaking.

You can search the whole world over but you won't find a more versatile dive destination than The Florida Keys & Key West. In fact, you can spend a lifetime underwater

and still not scratch the surface of everything there is to see.

So come on down to The Florida Keys & Key West and be prepared to stay a little longer than you had anticipated.

DIVE SAFELY

1. Always dive with a buddy.
2. Always stay within your certification depth limits.
3. Drinking and drugs don't mix with diving.
4. Take nothing but photos - leave nothing but bubbles.
